

3-27-20

Dear Family and Friends,

We are cautiously optimistic to report that we are still without suspected cases of the COVID 19 virus in our communities. This is due in full part to the wonderful staff who we have caring for our residents. They have made a commitment to come to work and as important, to go directly home and self-quarantine afterwards. It is through their efforts that we are able to maintain a high level of care and compassion during these hard times.

We have settled into the new norms of screening all staff, essential healthcare providers and delivery people. We are also screening all of our residents daily and continue to request that they stay within the bubble we are creating on the property. I know that things will change quickly over the next month or two with the entire world working on quicker, more available testing, vaccines and treatments. In the meantime, we prepare to do everything we can to keep our population healthy.

As always, I wish you and your families health. Your patience and understanding has gone a long way over the last two weeks.

All the best,

A handwritten signature in black ink, appearing to read "David Pokorny". The signature is fluid and cursive, with a large initial "D" and a stylized "P".
